this updated edition provides an ideal teaching text for first year university and college courses

this edition contains much new material all the empirical materials have been brought up to date there are new sections covering issues ranging from ethnic struggles and changes in class structure through to eating disorders and the expanding impact of

whilst particularly useful as a companion to the sixth edition of giddens s sociology the reader is designed for use independently or alongside other textbooks

in this book anthony giddens addresses a range of issues concerning current developments in social theory relating them to the prospects for sociology in the closing decades of the twentieth century composed of closely integrated papers all written over the past few years the book includes seven essays not previously published plus two have not appeared in english before in assessing the likely future evolution of sociology in particular and the social sciences in general the author both draws upon ideas established in his more abstract theoretical writings and examines critically competing traditions of thought those looking for an accessible introduction to giddens s writing will find in this book a set of clear expositions of his basic ideas by situating these ideas in relation to the critical assessment of the views of others however the author provides new sources of insight into the distinctiveness of his own claims

the seventh edition of this indispensable resource continues from strength to strength to provide a vibrant engaging and authoritative introduction to sociology revised and updated throughout it provides a commanding overview of recent global developments and new ideas in sociology classic debates are also given careful coverage with even the most complex ideas explained in an engaging way written in a fluent easy to follow style the book manages to be intellectually rigorous but still very accessible with a strong focus on interactive pedagogy it aims to engage and excite readers helping them to see the value of thinking sociologically the seventh edition includes substantive new and improved material on the global financial crisis recent social unrest from student protests and austerity riots to the arab spring the environment new media technologies feminist social theory intersectionality and shifting global power further revisions and updating in all the chapters a strong focus on global sociology and the sociological imagination new fully developed end of chapter materials inviting readers to engage with popular culture as well as original research articles to gather sociological insights specially chosen eye catching photographs which capture the everyday drama of the social world all the quality pedagogical features from the previous edition such as classic studies and global society boxes and thinking critically reflection points a best selling textbook for nearly 25 years the seventh edition sets the standard for introductory sociology complete with regularly

updated extensive supporting resources at politybooks.com/giddens it is the ideal teaching text for first year university and college courses and will help to inspire a new generation of sociologists

social life is in a constant process of change and sociology cannot afford to stand still sociology today is theoretically diverse covers a huge range of subjects and draws on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it into historical and theoretical context explores its main meanings in use introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to citizenship the environment and intersectionality it will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world

anthony giddens is one of the world's most prominent and prolific sociologists and yet he is also a difficult study for the beginning student of sociology this is the first introduction to the work of giddens including the major part of his sociological and social theoretical project the author traces giddens development from the late sixties to the nineties in a straightforward readable style covering all parts of giddens's sociology in a well arranged summary also featured is a lengthy interview with giddens by the author and the most comprehensive giddens bibliography to date

now available in a discounted bundle buy the exciting new sixth edition of anthony giddens's sociology alongside the specially tailored and revised selection of key sociological works in sociology introductory readings the main textbook provides an authoritative overview of recent global developments and new ideas in sociology classic debates are also given careful coverage with even the most complex ideas explained in an engaging way the reader offers a stimulating and wide ranging set of readings to enable students to get to grips with original sociological thinking a strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively yet remains challenging together the two books provide an engaging and thorough introduction to the full scope of sociology a comprehensive resource for all students for additional support and material please visit the accompanying website at politybooks.com/giddens6

a rigorous but accessible introduction to giddens work including a critical assessment of his writings on the third way

is there a future for sociology to many sociology seems to have lost its way born of the ideas of auguste comte in the nineteenth century sociology established itself as the science of modernity linked to a progressive view of history yet today the idea of progress has more or less collapsed with its demise some say sociological thought has moved to the margins of contemporary intellectual culture in this book the author challenges such an interpretation showing that sociology continues to hold a central position within the social sciences looking both to the past of sociology and the diversity of intellectual trends found in the present day giddens explores many aspects of the sociological heritage comte durkheim parsons marshall and habermas are among the figures covered giddens also connects sociological work directly to current political issues and places the discipline of sociology in the context of broad questions of social and political theory this book will be of interest to undergraduates and professionals in the fields of sociology anthropology and political science

an introduction to the work of anthony giddens and a critical discussion of his ideas it sets out the background to and sources for giddens development of structuration theory and describes the main features of his theory

anthony giddens has been in the forefront of developments in social theory for the past decade in the constitution of society he outlines the distinctive position he has evolved during that period and offers a full statement of a major new perspective in social thought a synthesis and elaboration of ideas touched on in previous works but described here for the first time in an integrated and comprehensive form a particular feature is giddens s concern to connect abstract problems of theory to an interpretation of the nature of empirical method in the social sciences in presenting his own ideas giddens mounts a critical attack on some of the more orthodox sociological views the constitution of society is an invaluable reference book for all those concerned with the basic issues in contemporary social theory

anthony giddens is widely recognized as one of the most important sociologists of the post war period this is the first full length work to examine giddens social theory it guides the reader through giddens early attempt to overcome the duality of structure and agency he saw this duality as a major failing of social theories of modernity his attempt to resolve the problem can be regarded as the key to the development of his landmark s structuration theory the book is the most complete and thorough assessment of giddens work currently available it incorporates insights from many diffe

this book is built upon a series of critical encounters with major figures in classical and present day social and political thought the volume offers not only a challenging critique of major traditions of social and political analysis but unique insights into the ideas which anthony giddens had developed over the past two decades

anthony giddens is widely recognized as one of the most important sociologists of the post war period this is the first full length work to examine giddens social theory it guides the reader through giddens early attempt to overcome the duality of structure and agency he saw this duality as a major failing of social theories of modernity his attempt to resolve the problem can be regarded as the key to the development of his landmark structuration theory the book is the most complete and thorough assessment of giddens work currently available it incorporates insights from many different perspectives into his theory of structuration his work on the formation of cultural identities and the fate of the nation state this far reaching work also touches on issues such as the transformation of modern intimacy and sexuality and the fate of politics in late modern society

regarded as the most authoritative introduction to contemporary sociology essentials of sociology adds a new author to its team with the second edition

an introduction to the sociology of religion provides an overview of sociological theories of contemporary religious life some chapters are organized according to topic others offer brief presentations of classical and contemporary sociologists from karl marx to zygmunt bauman and their perspectives on social life including religion throughout the book illustrations and examples are taken from several religious traditions

an introduction to the work of anthony giddens and a critical discussion of his ideas it sets out the background to and sources for giddens development of structuration theory and describes the main features of his theory
