excerpt from a concise handbook of ancient and modern literature issued either anonymously under pseudonyms or initials that much if not all of the matter contained in this small book may be found in the four thick volumes of the above is highly probable but i cannot express an opinion on the subject not having had the good fortune to be able to afford myself a copy though it is a work i should dearly like to possess and my advice to all who can afford it is get it by all means in compiling this volume i have had to rely mainly on works which have come under my own observation either as a cataloguer or in the sale room there is an admirable list in the older edition of clegg s directory of book sellers and i have been able to reduce the bulk of the present work a great deal by excluding mac z matter which though it has actually passed through my hands may readily be found by referring to that useful little volume which is doubtless in the possession of most booksellers to day my chief aim has been not com petition with anything at present on the market indeed as far as halkett and laing s work is concerned in my opinion this would not be possible but rather to supply as far as in my power information not readily to be found in lowndes allibone or brunet and in attempting the same to study accuracy in

detail to ensure this i have spared neither time nor trouble as may be supposed some errors have doubtless crept in and with regard to these i shall be glad to receive notices and corrections from the reader with a view to possible amendment in any future edition the compilation of the work has been to me more of a pleasure than labour and was not primarily executed as a means of making money should the little volume meet any present trade requirements i shall consider myself more than repaid for my labour and in putting it on the market i do so with a hope that booksellers librarians and even private collectors into whose hands the work may come will find in its pages some information with which they were previously unacquainted about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
