anyone who looks beyond the bestseller lists can see that the literary landscape outside its commercial walls is just as varied as that of visual art just as wild just as conceptual novels in the form of dioramas narratives read through virtual reality glasses or told as a series of tweets stories told as recipes poems in skywriting genetic code pixels skin as well as print and sound the 100 prose works and poems that make up Conceptualisms all have the strangeness authors have always given ordinary speech in order to transform it into literature in fact this strangeness or unfamiliarity may be the very core of what makes writing literature and pushed to its boundaries what makes literature conceptual experimental conceptual avant-garde hybrid surfiction fusion radical slip stream avant-pop postmodern self-conscious innovative language writing alternative anti or new literature across the years a variety of names have been used to describe fiction poetry and hybrid writing that like conceptual visual art foregrounds its ideas explores new forms challenges mainstream writing traditions strives for ways to speak to the present along with whatever else they do they ask why isn't this also literature and keep the boundaries of literature flexible and unresolved now for the first time here is an anthology that offers an overview of this other tradition as it lives in the early decades of the 21st century the first major anthology of this other tradition Conceptualisms presents writing by over 90 authors across three generations representing a plethora of aesthetics and approaches to their subjects readers will recognize authors

What happens when death becomes part of the journey of international migrants? This book examines how mortality is woven into the experience of displacement and migration, from perilous border crossings to the business of repatriation and contested burial grounds. It reveals the hidden geographies and politics that underpin the death of migrants in transit or abroad. Drawing together diverse research across disciplines, it offers a cohesive framework for understanding the industries, rituals, and emotional labour surrounding migrant death, whether through bureaucratic processes, artistic productions, activist mobilizations, or collective mourning. Death becomes not an endpoint but a powerful force shaping how migration is lived, governed, and remembered.

This book traverses the cultural landscape of Colombia through in-depth analyses of displacement, local and global cultures, human rights abuses, and literary and media production. Through an exploration of the cultural processes that perpetuate the darker side of Latin America for global consumption, it investigates the condition that has led writers, filmmakers, and artists to embrace purposefully or not the incessant violence in Colombian society as the object of their own creative endeavors. In this examination of mass-marketed cultural products such as narco stories, captivity memoirs, gritty travel narratives, and films, Herrero Olaizola seeks to offer a hemispheric approach to the role played by Colombia in cultural production across the continent, where the illicit drug trade has made significant inroads. To this end, he identifies the Colombian condition within the parameters of the global economy while concentrating on the commodification of Latin America's violence for cultural consumption. Recent fiction is teeming with blocked writers, from John Updike's Henry Bech to Stephen King's Paul Sheldon and Mike Noonan, from David Foster Wallace's Mark Nesh to the autofictional figures of Jordan Castro, Salvador Plascencia, Nam Le, Ben Lerner, Sheila Heti, and Andrew Martin. *Writing Through Writer's Block* offers the first book-length analysis of the archetype of the blocked writer from the scenes of writer's block enacted in these fictions. We gather pedagogical lessons that are germane to writers of all kinds, creative and academic, advanced and novice, and particularly useful for the growing contingency of faculty

whose teaching responsibilities lie in both literature and academic writing
