what sorts of things really exist in the world or out of it what can we know about them how do your thoughts and words relate to reality what are human beings what do their freedom and consciousness amount to how should people act what would a just society be like these are the perennial problems of philosophy which have been examined and debated for thousands of years and are still confronted by philosophers today in his superb general introduction to contemporary philosophy and its concerns anthony o hear shows how differing answers to these questions lead to differing conceptions of ourselves and the world

jackson and smith have assembled over 30 distinguished scholars to contribute surveys in the principal areas of research in philosophy including metaphysics the philosophy of language and epistemology

introducing the reader to the very latest developments in the philosophical foundations of physics this book covers advanced material at a level suitable for beginner and intermediate students a detailed overview is provided of the central debates in the philosophy of quantum mechanics statistical mechanics quantum computation and quantum gravity this book enables both philosophers and physicists to engage with the most pressing problems in contemporary philosophy of physics in a fruitful way

this collection of original articles written by leading contemporary european and american philosophers of religion is presented in celebration of the publication of the fiftieth volume of the international journal for philosophy of religion following the editor s introduction john macquarrie adriaan peperzak and hent de vries take up central themes in continental philosophy of religion macquarrie analyzes postmodernism and its influence in philosophy and theology peperzak argues for a form of universality different from that of modern philosophy and de vries analyzes an intrinsic and structural relationship between religion and the media the next three essays discuss issues in analytic philosophy of religion philip quinn argues that religious diversity reduces the epistemic status of exclusivism and makes it possible for a religious person to be justified while living within a pluralistic environment william wainwright plumbs the work of jonathan edwards in order to better understand debates concerning freedom determinism and the

problem of evil and william hasker asks whether theological incompatibilism is less inimical to traditional theism than some have supposed representing the thomist tradition fergus kerr challenges standard readings of aquinas on the arguments for the existence of god david griffin analyzes the contributions of process philosophy to the problem of evil and the relation between science and religion illustrating comparative approaches keith ward argues that the semitic and indian traditions have developed a similar concept of god that should be revised in view of post enlightenment theories of the individual and the historical keith yandell explores themes in the indian metaphysical tradition and considers what account of persons is most in accord with reincarnation and karma doctrines feminist philosophy of religion is represented in pamela anderson s article in which she argues for a gender sensitive and more inclusive approach to the craving for infinitude

during the early modern era c 1600 1800 philosophers formulated a number of new questions methods of investigation and theories regarding the nature of the mind the result of their efforts has been described as the original cognitive revolution topics in early modern philosophy of mind provides a comprehensive snapshot of this exciting period in the history of thinking about the mind presenting studies of a wide array of philosophers and topics written by some of today s foremost authorities on early modern philosophy the ten chapters address issues ranging from those that have long captivated philosophers and psychologists as well as those that have been underexplored likewise the papers engage figures from the history of ideas who are well known today descartes hume kant as well as those who have been comparatively neglected by contemporary scholarship desgabets boyle collins this volume will become an essential reference work that graduate students and professionals in the fields of philosophy of mind the history of philosophy and the history of psychology will want to own

dieter henrich is one of the most respected and frequently cited philosophers in germany today his extensive and highly innovative studies of german idealism and his systematic analyses of subjectivity have significantly impacted on advanced german philosophical and theological debates dieter henrich and contemporary philosophy presents a comprehensive analysis of henrich s work on subjectivity evaluating it in the context of contemporary debates in both continental and analytic traditions familiarising the non german reader with an important development in contemporary german philosophy this book explains the significance of subjectivity

for any philosophy that attempts to offer existential orientation and contrasts competing conceptions in analytic philosophy and in the social philosophy of juergen habermas presenting henrich s philosophy of subjectivity as a credible alternative to analytic philosophy of mind and a radical challenge to heideggerian habermasian neo pragmatist and postmodern positions freundlieb argues that a philosophy of the kind developed by henrich can regain the cultural significance philosophical thinking once possessed dieter freundlieb is senior lecturer in the school of humanities griffith university australia
